Which numbers did you use to come up with the 5-4-5 political breakdown?

Election data chart attached and also a chart containing 18+ populations for exclusive-black and AP-Black.

Also, all 9 Benson plans and the Sarpolus plan appear to have two districts that exceed 50% BVAP, but in some of the plans that might only be by the barest of margin

Don't know that we will definitely need it, but do you have a chart with the population, racial (for the 2 MM districts) and the political data by district? Would just like to have it on hand for potential questions. Thanks, sorry if this was sent to my state email earlier, I have trouble getting into it from home sometimes..
